

SBP's Transfer System is modified

The Superintendency of Banks (SBP) had a round of meetings with all the banks of the Banking Center, so as to feature the data elements that will comprise the Guarantee Atom.

The strategy submitted by the Guarantee Atom Project consolidated the suggestions received from the banks at the request of the SBP in the Annual Meeting of the Panama Banking Association.

On the banks' side, the staff linked to the credit and technology areas participated, which will result in a better and more efficient system.

On the SBP's part, staff of the Economic Studies, Banking Supervision and Technology Directorates participated.
