

**Alberto Enrique De León González**  
**Director of IT**

Mr. De León González holds a bachelor's degree in Computer Science from Universidad Interamericana de Panamá.

He has extensive professional experience in the government's technology sector, having worked for important entities such as the National Budget Division of the Ministry of Economy and Finance and the General Revenue Office of the Ministry of Finance and Treasury.

Mr. De León participated in the migration process during the implementation of the automated information system for the submission of the Banking Center's information to the Superintendency of Banks.

In addition to his experience and academic knowledge, Mr. De León has participated in many activities, congresses, courses, and seminars that have provided significant value to his technology expertise, including Electronic Banking Systems Risk Supervision and Assessment (Comptroller of the Currency, U.S. Department of the Treasury, Washington, DC); Electronic Banking and Systems Auditing (Association of Banking Supervisors of the Americas, Costa Rica); International Financial Reporting Standards (IFRS) and the XBRL standard (Bank of Spain and the National Securities Market Commission, Madrid, Spain); and the International Conference on Security of Information and Risk Assessment (ISACA, Las Vegas, NV, United States).

Additionally, Mr. De León has participated as an international speaker on the application of international standards for the exchange of financial information while promoting transparency and trust through ICTs. Among them are the Conference on the Application of Financial Information Reporting Standards and Open-Source Tools in Panama (Universidad Javeriana, Bogotá, Colombia); and the Conference on the Panamanian Experience in Applying Central Balance Sheets (Center for Latin American Monetary Studies (CEMLA), Santiago, Chile).

He is also a founding member of the Technology Committee of the Central American Council of Superintendents of Banks, Insurance, and Other Financial Institutions (CCSBSO) and holds a Certificate in XBRL Interactive Data and its Application in Regulatory Entities awarded by the Fundación CEDDET and the Bank of Spain (Madrid, Spain).
