Alberto Enrique De León González **Information Technology Division**

Mr. De León González holds a Bachelor of Arts in Computer Science from the Universidad Interamericana de Panamá.

He has broad professional experience in the Government's Technology area, having worked for important entities such as the National Budget Division of the Ministry of Economy and Finance and the General Revenue Division of the Ministry of Finance and Treasury.

Mr. De León was an active participant of the migration process during the application of the automated information system for the submittal of the Banking Center's information to the Superintendency of Banks.

In addition to his experience and academic knowledge, Mr. De León has participated in many activities, congresses, courses, and seminars that have provided significant value to his technology expertise, including Electronic Banking Systems Risk Supervision and Assessment (Comptroller of the Currency, US Department of the Treasury, Washington, DC); Electronic Banking and Systems Auditing (Association of Banking Supervisors of the Americas, Costa Rica); International Financial Reporting Standards (IRFS) and the XBRL standard (Bank of Spain and the National Securities Market Commission, Madrid, Spain); and the International Conference on Security of Information and Risk Assessment (ISACA, Las Vegas, NV, United States).

Additionally, Mr. De León González has participated as an international speaker on the application of international standards for the exchange of financial information while promoting transparency and trust through TICs. Among them are the Conference on the application of financial information reporting standards and open-coded tools in Panama (Universidad Javeriana, Bogota, Colombia); the Conference on the Panamanian experience in applying central balance sheets (Center for Latin American Monetary Studies (CEMLA) Santiago, Chile).

He is also a founding member of the Technology Committee of the Central American Council of Superintendents of Banks, Insurance and Other Financial Institutions (CCSBSO, for its acronym in Spanish) and holds a Certificate in XBRL interactive data and its application in regulatory entities awarded by the Fundación CEDDET and the Bank of Spain (Madrid, Spain).
